High Speed Guillotine Cutter Model

Commercial Offer

High Speed Guillotine Cutter is a programmable guillotine-type strip cutting machine, which is designed to cut a wide range of laminated cards into final strip sizes. Cut speed is about 100–800 strips/min.This is suitable for both R&D and production-scale quantities.

Features

- Programmable strip cutter cut final width and numbers of strips automatically
- Capable of cutting various card size
- Blade leaves a very clean edge and has very long life.
- Easy to change the blade.
- Good design to avoid the problems for unshaped edge, sticked strips to blade.
- Have auto cut, one cut and feed functions.
- Has memory to recall last steps from previous run

Specification

- Power 90-250VAC 50/60Hz
- Weight: 29KGSize 420370230mm
- Accuracy: ±0.05mm
- Cutting speed: 100-800 strips/min
- Cutting Size: 0.5~550mm
- Uncut sheet width: 0~100mm
- Residual material: <10mm
